February 2022

Board Actions DECEMBER 2021

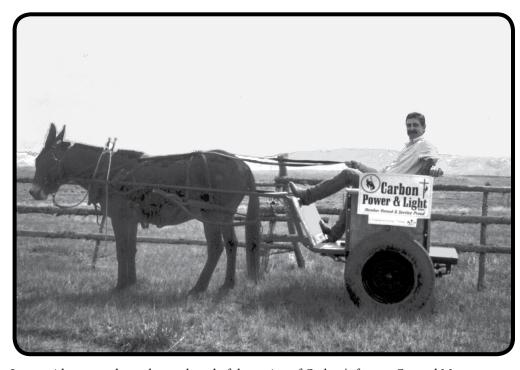

Approved the Department Production and Financial Reports.

Approved the Work Order Inventory for \$155,887.40.

Accepted the resignation of Director

REMEMBER TO SET YOUR CLOCKS AHEAD ON MARCH 13, 2022

It was with great sadness that we heard of the pasing of Carbon's former General Manager, Charles, "Chuck" Larsen. Chuck retired in June of 2015 after 36 years with Carbon Power & Light. Chuck started at Carbon's outpost in Laramie and started as a Groundman in 1979, became a Journeyman Lineman, Engineering Tech, Director of Engineering and then in 1992 he became General Manager. Chuck always "rode for the brand". His many talents and wit will be greatly miss by all of us at Carbon Power & Light.

Member-Owned Service - Proud

RUSSELL WALDNER, GENERAL MANAGER

Merry Christmas and Happy New Year!

All of us at Carbon are looking forward to the holiday season, some to spend time with Family and Friends, some to get a little extra rest, and some to have extra time to finish that 2021 project. We hope that whatever your plans for the season are, that they are enjoyable.

The COVID 19 pandemic has been very impactful to Carbon. We have had numerous employees that have had to miss work due to the health protocols to protect the employee group. We have had to adjust our training schedules. We have made decisions to avoid travel that may adversely affect the health of Carbon's work force and our ability to maintain our service reliability. So far, we have been able to maintain our work force at acceptable levels to provide the service you, our Member-Owners, have come to expect.

When you encounter a Carbon employee, please join me in thanking them for their continued commitment to keeping us all healthy and safe while providing you, our Member-Owners, outstanding service.

If you should have concerns or comments please contact us!

Energy Efficiency Tip of the Month

Replace standard power strips with advanced power strips to save energy. Advanced power strips look like ordinary power strips, but they have built-in features that are designed to reduce the amount of energy used by standby electronics that consume energy even when they're not in use (also known as phantom load).

The National
Renewable
Energy
Laboratory
(NREL) estimates
that the average
home loses \$200
annually to energy
wasted by phantom
load.

THREE EASY WAYS TO UPDATE YOUR ACCOUNT PROFILE INFORMATION

Carbon Power & Light makes every effort to serve you in the most efficient way possible. Having current account information is a vital component that ensures you receive information.

WE OFFER THREE CONVENIENT WAYS FOR YOU TO UPDATE YOUR ACCOUNT INFORMATION:

1. Phone Call

Change your account information over the phone by calling 307.326.5206 or 800.359.0249 (toll free), and we will gladly assist you in making those changes.

2. In Person

Changes to your account can be made at the same time you pay your bill. Just let us know that you need to update your account information. Or when you come in, take a few moments to verify that the information we have on file is up-to-date, even if you think your account information is correct.

3. Online

Go to: www.carbonpower.com then click on "Pay My Bill"

REASONS TO UPDATE YOUR ACCOUNT PROFILE INFORMATION

1. Outages

In the event of a scheduled outage, we would notify you using the phone number we have on file. With more and more people relying on cell phones rather than landlines, it is important to let your cooperative know when you receive a new number; especially if you rely on electricity for life support equipment.

2. Capital Credits

Since you share in the ownership of Carbon Power & Light, a non-profit cooperative, excess capital is returned to you in the form of a check by mail. Any excess capital is returned to you annually when the profits are retired, provided you had electrical service with Carbon during the year the capital credits were retired.

If you have any questions about the above information or other questions or concerns about your cooperative, please do not hesitate to call.

Thank you for helping Carbon Power & Light to better serve you.
