## STRATEGIC PLANNING:

On the 27th of March, the Board and Senior Staff held a one day Strategic Planning Session facilitated by Basin Electric personnel. The first part of day consisted of reviewing survey results associated with a survey sent to the Board and Staff prior to the meeting. One of the key findings of the survey was that both the Board and the Staff feel that the Cooperative is on the right track and that we are operating efficiently and effectively. Both groups acknowledged that a big part of this is due to our Outstanding Employees. Throughout the session goals were set based on key topics and their relative impact on the Cooperative such as, monitoring the rising costs of purchase power and succession planning for retiring employees. The

opportunity to take the time needed and to sit at the table and discuss these issues in depth...is in my opinion one of the key elements of any successful strategic planning process.

As we have done in the past, the main focus of this newsletter is to solicit your assistance in helping us contact the individuals whose names are included within, for the purpose of returning to them their share of the capital credits paid out by the Cooperative. If you know the whereabouts of any of these former Member-Owners please give us a call or contact the individual and have them call us. It will be most appreciated.

Thanks for being there for us.

Chuck
